

ASSESSMENT ANSWER SHEET (MODEL ANSWER)

Examiner's Reference — Model Answer. This document reproduces Appendices 3 to 7 of the SOALAN with the correct answers filled in. Text in **bold** is the model answer. Equivalent data-supported responses are acceptable where indicated.

APPENDIX 3 — PRODUCT & MARKET ANALYSIS FORM (TUGASAN 1)

A. SOURCE OF INFORMATION

1. **Appendix 1: Company and Product Information Sheet (product specifications, selling price, warranty, delivery capacity)**
2. **Appendix 2 section A: Unit Cost Structure (BOM, direct labour, logistics, advertising & promotion, total unit cost)**
3. **Appendix 2 sections B and C: Competitor Price & Features Matrix and F&B Operator Survey Summary (15 café / restaurant operators)**

B. PRODUCT ATTRIBUTES & FUNCTIONALITY

PrimaChef Convection Oven:

1. **4-tray capacity for commercial baking**
2. **Digital temperature control for precise cooking**
3. **Twin-fan air circulation for even heat distribution**

(At least three attributes from Appendix 1 accepted. Fourth acceptable attribute: 2 Years Warranty with On-Site Service; stainless steel cooking chamber.)

PrimaChef Combi Oven:

1. **10-tray capacity for high-volume commercial kitchen use**
2. **Combination steam & convection cooking modes**
3. **Programmable cooking menus and automatic self-cleaning function**

(At least three attributes from Appendix 1 accepted. Fourth acceptable attribute: 2 Years Warranty with On-Site Service.)

C. PRICE & FEATURES COMPARISON AND PROFIT MARGIN

ITEM	Convection Oven	Competitor 1 (BakeMaster C40)	Combi Oven	Competitor 2 (OvenTech CB-12)
Selling Price (RM)	6,800	6,200	12,500	11,800
Warranty	2 years	1 year	2 years	1 year
Main Feature Advantage	On-site service; digital temp control	No on-site service	On-site service; self-cleaning	No on-site service
Total Unit Cost (RM)	4,760	—	8,250	—

ITEM	Convection Oven	Competitor 1 (BakeMaster C40)	Combi Oven	Competitor 2 (OvenTech CB-12)
Profit (RM)	2,040	—	4,250	—
Profit Margin (%)	30.00%	—	34.00%	—

Working: - Convection profit: RM6,800 – RM4,760 = RM2,040; margin: RM2,040 ÷ RM6,800 × 100 = 30.00% - Combi profit: RM12,500 – RM8,250 = RM4,250; margin: RM4,250 ÷ RM12,500 × 100 = 34.00%

D. TARGET MARKET

Target Market: **Café chains, restaurant groups and hotel kitchens in West Malaysia (Johor and surrounding areas) requiring commercial kitchen ovens.**

Justification: **60% of the 15 F&B operators surveyed are café chains or restaurant groups, and 80% identified multi-function ovens for baking and cooking as their main product need. 80% expressed purchase interest within 6 months.**

E. MARKET DEMAND & CUSTOMER EXPECTATIONS

- 80% of F&B operators require a multi-function oven for baking and cooking — both PrimaChef products address this primary need.**
- 80% of operators expect on-site installation and staff training — PrimaChef's 2 Years Warranty with On-Site Service directly meets this expectation.**
- 60% of operators require service response within 48 hours — the company's on-site service offering addresses this operational requirement.**

(Additional acceptable finding: 60% of convection oven buyers budget RM6,000–RM7,000, within which PrimaChef Convection Oven at RM6,800 falls.)

F. ANALYSIS SUMMARY

The PrimaChef Convection Oven (RM6,800) is priced higher than Competitor 1 (BakeMaster C40 at RM6,200) but offers superior warranty (2 years vs 1 year) and on-site service. Profit margin is 30.00%. The PrimaChef Combi Oven (RM12,500) is priced slightly above Competitor 2 (OvenTech CB-12 at RM11,800) but offers on-site service, programmable menus and self-cleaning — strong differentiation. Profit margin is 34.00%.

The primary target market is café chains and restaurant groups. Market demand is strong — 80% expressed purchase interest within 6 months. Both products meet the key customer expectations of multi-function capability, on-site service and 48-hour service response.

APPENDIX 4 — CORPORATE QUOTATION & PROPOSAL FORM (TUGASAN 2)

A. CUSTOMER'S NEEDS & REQUIREMENTS

1. **12 units of PrimaChef Convection Oven (two units per outlet, six outlets in Johor).**
2. **Delivery and installation at six outlet locations in Johor within 3 weeks of order confirmation.**
3. **2-year warranty with on-site service for all units.**

(Additional needs: 30-day quotation validity; bulk discount of up to 5%; payment terms of 50% deposit upon confirmation, balance upon completion of installation.)

B. QUOTATION

Quotation No.: **Q-2026-001** Date: **[Assessment date]**

Customer: **Kopi Selatan F&B Group**

Project / Delivery Address: **Six outlet locations in Johor**

Item 1 — Model: **PrimaChef Convection Oven** Quantity: **12** Unit Price (RM): **6,800** Total (RM): **81,600**

Item 2 (jika berkaitan) — Model: — Quantity: — Unit Price (RM): — Total (RM): —

Subtotal (RM): **81,600** Discount (5%): **RM4,080** Grand Total (RM): **RM77,520**

Delivery & Installation Terms: **Delivery and installation at six outlet locations in Johor within 3 weeks of order confirmation**

Warranty: **2 Years Warranty with On-Site Service — all 12 units** Payment Terms: **50% deposit upon confirmation; balance upon completion of installation**

Quotation Validity: **30 days**

Working: $12 \times \text{RM}6,800 = \text{RM}81,600$. Discount 5%: $\text{RM}81,600 \times 5\% = \text{RM}4,080$. Grand Total: $\text{RM}81,600 - \text{RM}4,080 = \text{RM}77,520$.

C. SHORT PROPOSAL

1. **Price: 12 units of PrimaChef Convection Oven are offered at RM6,800 per unit. A 5% bulk discount has been applied, reducing the grand total from RM81,600 to RM77,520 — a saving of RM4,080 for the customer.**
2. **Delivery & Installation: Delivery and installation will be completed at all six Johor outlet locations within 3 weeks of order confirmation, meeting the customer's delivery timeline and installation requirements.**
3. **Specification: All 12 units carry a 2 Years Warranty with On-Site Service, meeting the customer's warranty and on-site service requirements. The 4-tray digital convection oven is suitable for commercial baking across all outlet types.**

APPENDIX 5 — SALES PROJECTION & PERFORMANCE EVALUATION FORM (TUGASAN 3)

A. SALES PROJECTION (NEXT YEAR)

ITEM	Convection Oven	Combi Oven	TOTAL
Forecast Units	300	80	380
Sales Income (RM)	2,040,000	1,000,000	3,040,000
Product Cost (RM)	1,428,000	660,000	2,088,000
Total Operating Expenses (RM)	—	—	750,000
Projected Surplus / (Deficit) (RM)	—	—	202,000

Working: - Convection: $300 \times RM6,800 = RM2,040,000$ income; $300 \times RM4,760 = RM1,428,000$ cost - Combi: $80 \times RM12,500 = RM1,000,000$ income; $80 \times RM8,250 = RM660,000$ cost - Operating expenses: $RM420,000 + RM150,000 + RM70,000 + RM110,000 = RM750,000$ - Projected surplus: $RM3,040,000 - RM2,088,000 - RM750,000 = RM202,000$

B. SALES BUDGET SUMMARY FOR APPROVAL

Total projected sales income: RM3,040,000. Total product cost: RM2,088,000. Total operating expenses: RM750,000. Projected surplus: RM202,000.

The next-year sales plan for 300 units of PrimaChef Convection Oven and 80 units of PrimaChef Combi Oven is projected to generate a surplus of RM202,000.

C. SALES PERFORMANCE EVALUATION (JANUARY–JUNE 2026)

MONTH	TARGET (RM)	ACTUAL (RM)	ACHIEVEMENT %	ON TARGET? (YES/NO)
January	240,000	218,400	91.00%	No
February	240,000	232,800	97.00%	No
March	250,000	220,000	88.00%	No
April	250,000	260,000	104.00%	Yes
May	260,000	239,200	92.00%	No
June	260,000	249,600	96.00%	No
OVERALL	1,500,000	1,420,000	94.67%	No

Working: Achievement % = $\text{Actual} \div \text{Target} \times 100$. Overall: $RM1,420,000 \div RM1,500,000 \times 100 = 94.67\%$.

D. MAIN ISSUES IN SALES PERFORMANCE

1. **5 out of 6 months did not achieve 100% of the monthly sales target — overall achievement was 94.67% (RM1,420,000 of RM1,500,000 target).**
2. **March recorded the lowest achievement at 88.00% (RM220,000 of RM250,000) — highest monthly shortfall of RM30,000.**
3. **January also underperformed at 91.00% (RM218,400 of RM240,000) — the first month of the period fell below target.**

(Additional acceptable issue: Only April on target; consistent pattern of below-target performance in Q1 and May–June.)

E. SALES ACTION PLAN

1. **Strengthen corporate account acquisition activities, particularly in March and January — increase the number of F&B operator sales calls and demonstrations to close more orders early in each month.**
2. **Review the sales pipeline and implement a weekly performance tracking meeting to identify at-risk deals earlier and enable timely corrective action.**
3. **Set individual monthly sub-targets for each sales staff and review performance bi-weekly to address shortfalls before month-end.**

APPENDIX 6 — TEAM OBJECTIVE & DEPARTMENTAL REPORT FORM (TUGASAN 4)

A. SALES TARGET & KPI ALLOCATION (JULY–DECEMBER 2026)

Allocation basis: Team total target RM1,575,000 allocated in proportion to January–June individual targets (Syafiq and Hui Min: RM400,000 each; Kavitha and Daniel: RM350,000 each; total RM1,500,000).

SALES STAFF	SALES TARGET (RM)	INDIVIDUAL KPI
Syafiq	420,000	Achieve RM420,000 in sales for July–December 2026
Hui Min	420,000	Achieve RM420,000 in sales for July–December 2026
Kavitha	367,500	Achieve RM367,500 in sales for July–December 2026
Daniel	367,500	Achieve RM367,500 in sales for July–December 2026
TEAM TOTAL	1,575,000	

Working: Syafiq + Hui Min: $RM400,000 \div RM1,500,000 \times RM1,575,000 = RM420,000$ each. Kavitha + Daniel: $RM350,000 \div RM1,500,000 \times RM1,575,000 = RM367,500$ each. Total: $(2 \times 420,000) + (2 \times 367,500) = RM1,575,000$. ✓

(Equal allocation of RM393,750 each also acceptable if well justified.)

B. PERFORMANCE ASSESSMENT & REWARD PROPOSAL

Staff performance assessment: **Syafiq exceeded his January–June target — RM428,000 actual vs RM400,000 target (107.00%). Hui Min underperformed — RM356,000 actual vs RM400,000 target (89.00%). Kavitha underperformed — RM332,500 actual vs RM350,000 target (95.00%). Daniel underperformed — RM303,500 actual vs RM350,000 target (86.71%).**

Reward proposal: **Propose Syafiq for a performance reward, subject to superior's approval.**

Justification: **Syafiq is the only sales staff member who exceeded his half-year sales target (107.00%). Under the company reward procedure, staff who exceed the half-year sales target may be proposed for a performance reward, subject to superior's approval.**

C. DEPARTMENTAL ADMINISTRATION REPORT (JANUARY–JUNE 2026)

Departmental KPI achievement:

KPI (i) Monthly sales target achievement: 1 out of 6 months on target (April only). Overall achievement 94.67% — below 100% KPI.

KPI (ii) New F&B corporate accounts: 24 out of 30 target — not achieved.

KPI (iii) Service calls attended within 48 hours: 93% actual vs 90% target — achieved.

Budget vs actual spending finding: **Actual spending of RM374,000 exceeded the departmental budget of RM360,000 by RM14,000. Staff cost overspent by RM7,000 (RM232,000 actual vs RM225,000 budget). Marketing overspent by RM9,000 (RM94,000 actual vs RM85,000 budget). Administration underspent by RM2,000 (RM48,000 actual vs RM50,000 budget).**

Improvement actions:

1. **Increase F&B corporate account prospecting activities to close the shortfall of 6 new accounts (target 30, actual 24) — assign each sales staff a monthly new account target for July–December 2026.**
2. **Implement monthly budget review and approval control for staff cost and marketing expenditure to prevent overspending — require pre-approval for expenditure exceeding the monthly allocation.**

Conclusion: The department achieved the service response KPI (93% vs 90% target) but fell short on monthly sales target (94.67%) and new corporate accounts (24 of 30). Departmental spending exceeded budget by RM14,000. Corrective action is required on sales activity, new account acquisition and budget control for the second half of 2026.
