SKEMA PEMARKAHAN INI MENGANDUNGI 15 MUKA SURAT BERCETAK TERMASUK MUKA HADAPAN

Disemak dan Disahkan oleh: Fasilitator Pembangunan Soalan / PPL:

Nota penilai: kriteria skema ini berdasarkan Performance Criteria Competency Profile (CP) NOSS FB-018-45:2012, dirujuk sebagai C0x PC n.n / C0x WAn.

SKALA PEMARKAHAN

Markah	Keterangan
0	Tidak Dilakukan / Salah
1	Tidak Memuaskan
2	Memuaskan
3	Sangat Memuaskan

Pengiraan Pemarkahan:

$(\text{Markah Diperolehi} \div \text{Markah Penuh}) \times \% \text{ Pemberat}$

* % Pemberat akan ditentukan oleh pakar yang membangunkan soalan

BAHAGIAN 1 — PERKARA KRITIKAL (Wajib Lulus)

	KRITERIA	TERIMA	TIDAK TERIMA
1.1	The candidate uses the company, market, financial, staff, logistic and technology information provided without falsifying or materially altering the source information or data.	☐	☐

Sekiranya perkara kritikal TIDAK DILAKSANAKAN → calon dianggap TIDAK TERAMPIL bagi keseluruhan penilaian.

BAHAGIAN 2 — PROSES KERJA (60%)**2.1 Market trends and issues in market are determined (C01 PC 2.2, PC 2.3)**

- Trends consistent with the data, e.g. space-saving / modular design as main buying factor (44%), work-from-home at least 2 days weekly (62%), high interest in modular home-office desks (68%).
- Issues consistent with the data, e.g. lower-priced competition (Competitor A at RM280), price sensitivity (32%), weak pilot performance in Melaka.

Tahap	Keterangan	Markah
I	Two trends and two issues stated, all supported by the survey / competitor data.	3
II	Trends and issues mostly relevant, with one weakly supported item.	2
III	Only one relevant trend or issue is supported by the data.	1
IV	Trends / issues not determined or unrelated to the data.	0

% Pemberat: 3% Markah Diperolehi: ___/3 (Markah ÷ 3) × 3%

2.2 Buying factors and price point of target market are determined (C01 PC 4.2, PC 4.3)

- Buying factors from the survey, e.g. space-saving / modular design (44%) and price (32%).
- Price point supported by the data: willing-to-pay RM350–RM450 (55%) and competitor prices RM280–RM480; recommended retail within this range (suggested retail RM350 / RM450 acceptable).

Tahap	Keterangan	Markah
I	At least two buying factors and a price point stated, each with supporting data.	3
II	Buying factors and price point stated but one lacks clear supporting data.	2

Tahap	Keterangan	Markah
III	Only buying factors OR price point adequately supported.	1
IV	Not determined or contradicts the data provided.	0

% Pemberat: 3% Markah Diperolehi: ____/3 (Markah ÷ 3) × 3%

2.3 Marketing plan summary is designed (C01 PC 5.1–5.4, PC 5.5)

- Key feature to promote decided according to product specification (e.g. modular / space-saving / adjustable shelf).
- Benefits to buyers and supporting facts drawn from the data provided.
- Promotion plan states channel & approach consistent with survey findings; performance measurement stated.

Tahap	Keterangan	Markah
I	Key feature, benefits, facts, promotion plan and performance measurement all completed and consistent with the data.	3
II	Four of the five elements completed and consistent.	2
III	Only two to three elements completed or weakly linked to the data.	1
IV	Marketing plan summary not prepared.	0

% Pemberat: 3% Markah Diperolehi: ____/3 (Markah ÷ 3) × 3%

2.4 Margin for each product is calculated and confirmed against required gross margin (C02 PC 4.3, PC 4.1)

Jawapan Betul SET B: - Model A: $(RM250 - RM150) \div RM250 \times 100 = 40.00\%$ — meets the 40% requirement (exactly). - Model B: $(RM320 - RM190) \div RM320 \times 100 = 40.63\%$ (40.625%) — meets the 40% requirement.

Tahap	Keterangan	Markah
I	Both margins correctly calculated with working shown and correctly concluded against the 40% requirement.	3
II	One margin correct, or both correct but conclusion missing / minor rounding issue.	2
III	Method correct but calculations wrong, or only one margin attempted.	1
IV	Margin not calculated or method wrong.	0

% Pemberat: 3% Markah Diperolehi: ____/3 (Markah ÷ 3) × 3%

2.5 Three-month sales budget is forecast (C02 PC 6.2, WA6)

Jawapan Betul SET B: - Month 1: Model A $600 \times RM250 = RM150,000$; Model B $300 \times RM320 = RM96,000$; total **RM246,000**. - Month 2 (+20%): Model A $720 \times RM250 = RM180,000$; Model B $360 \times RM320 = RM115,200$; total **RM295,200**.

B 360 = RM115,200; total **RM295,200**. - Month 3 (+10%): Model A 792 = RM198,000; Model B 396 = RM126,720; total **RM324,720**.

Tahap	Keterangan	Markah
I	All three months' units and RM values correct (minor rounding accepted).	3
II	Two months correct, or all months correct in units with minor RM errors.	2
III	Only one month correct.	1
IV	Forecast not prepared or substantially wrong.	0

% Pemberat: 3% Markah Diperolehi: ____/3 (Markah ÷ 3) × 3%

2.6 Forecast confirmed within capacity and financial requirement (C02 PC 6.2, PC 2.1, PC 3.3)

Jawapan Betul: Highest month = Month 3 = 1,188 units — within production capacity (2,000) and dealer fulfilment capacity (1,500). Margins meet the required gross margin (see 2.4).

Tahap	Keterangan	Markah
I	Forecast explicitly checked against both production and fulfilment capacity with correct figures.	3
II	Checked against one capacity constraint correctly.	2
III	Confirmation stated without supporting figures.	1
IV	No capacity / financial confirmation made.	0

% Pemberat: 2% Markah Diperolehi: ____/3 (Markah ÷ 3) × 2%

2.7 Individual KPI is determined according to sales budget (C03 PC 2.3, PC 2.1)

- Individual monthly sales KPI set for all 5 staff.
- KPI total is consistent with the sales budget (e.g. Month 1 = RM246,000, or budget plus existing-product targets, stated by the candidate).
- Allocation reflects staff capability from the appraisal data, with justification.

Tahap	Keterangan	Markah
I	KPI set for all 5 staff, total consistent with the sales budget, allocation justified.	3
II	KPI set for all staff and total consistent, but justification is general.	2
III	KPI set for some staff only or total inconsistent with the budget.	1
IV	Individual KPI not determined.	0

% Pemberat: 2% Markah Diperolehi: ____/3 (Markah ÷ 3) × 2%

2.8 Job performance is assessed based on sales performance and appraisal criteria (C03 PC 4.1)

Jawapan Betul: Above target: SE-1 (110%), SE-4 (105%). Below target: SE-2 (75%), SE-3 (60%), SE-5 (70%).

Tahap	Keterangan	Markah
I	All five staff correctly classified against target using the appraisal data.	3
II	Four staff correctly classified.	2
III	Only two to three staff correctly classified.	1
IV	Performance not assessed or substantially wrong.	0

% Pemberat: 3% Markah Diperolehi: ____/3 (Markah ÷ 3) × 3%

2.9 KPI of individual/team is assessed according to sales performance (C03 PC 4.2)

- Team evaluation summary uses the achievement data (team actual RM256,500 vs target RM300,000 = 85.5%, or equivalent interpretation).
- Weaker performers and overall team gap identified.

Tahap	Keterangan	Markah
I	Team-level evaluation is data-supported and identifies stronger / weaker performers.	3
II	Evaluation is generally correct but uses limited data.	2
III	Evaluation vague or repeats numbers without interpretation.	1
IV	Team performance not evaluated.	0

% Pemberat: 2% Markah Diperolehi: ____/3 (Markah ÷ 3) × 2%

2.10 Selling price is estimated based on competition and customer feedback (C04 PC 3.1)

Jawapan diterima: retail estimate within RM350–RM450 (willing-to-pay 55%; competitors RM280–RM480), or dealer price consistent with App 3, with basis stated.

Tahap	Keterangan	Markah
I	Price estimate within the supported range with both competition and customer data cited.	3
II	Price estimate within range with one data source cited.	2
III	Price stated without basis.	1
IV	Selling price not estimated or contradicts the data.	0

% Pemberat: 2% Markah Diperolehi: ____/3 (Markah ÷ 3) × 2%

2.11 Sales volume is estimated based on market analysis (C04 PC 3.2)

Jawapan diterima: volume consistent with App 3 projection (e.g. Month 1 = 900 units total) or a reasoned estimate from the survey interest data (68% interested), with basis stated.

Tahap	Keterangan	Markah
I	Volume estimate consistent with the data and the basis clearly stated.	3
II	Volume estimate consistent with the data but basis only generally stated.	2
III	Volume stated without basis.	1
IV	Sales volume not estimated.	0

% Pemberat: 3% Markah Diperolehi: ___/3 (Markah ÷ 3) × 3%

2.12 Profitability and break-even point are estimated (C04 PC 3.3)

Jawapan Betul SET B: Contribution: Model A RM100/unit; Model B RM130/unit. Break-even on fixed expenses RM105,000/month: - Model A alone: $105,000 \div 100 = 1,050$ units; Model B alone: $105,000 \div 130 = 808$ units (807.7); OR - Mix 2:1 (per projection): weighted contribution RM110 → **≈955 units** (954.5). Any one method, correctly computed, is accepted. Profitability conclusion: Month 1 contribution = $600 \times 100 + 300 \times 130 = \text{RM}99,000 < \text{RM}105,000$ (below break-even); Month 2 onwards above break-even (Month 2 = RM118,800).

Tahap	Keterangan	Markah
I	Break-even correctly calculated by an accepted method with working, and profitability correctly concluded.	3
II	Break-even correct but profitability conclusion missing or has a minor error.	2
III	Method correct but calculation wrong.	1
IV	Break-even not estimated or method wrong.	0

% Pemberat: 2% Markah Diperolehi: ___/3 (Markah ÷ 3) × 2%

2.13 Manpower requirement plan is established (C05 PC 2.3, WA2)

- Current workforce correctly stated (5 sales staff per Appendix 4).
- Requirement derived from the sales & marketing planning (launch projection), with number and justification.
- Plan is internally consistent (e.g. weaker performers, additional coverage areas considered).

Tahap	Keterangan	Markah
-------	------------	--------

Tahap	Keterangan	Markah
I	Current workforce, requirement and justification all stated and consistent with the planning data.	3
II	Requirement stated with general justification.	2
III	Requirement stated without justification or current workforce wrong.	1
IV	Manpower requirement plan not prepared.	0

% Pemberat: 3% Markah Diperolehi: ____/3 (Markah ÷ 3) × 3%

2.14 Staff performance problems are determined from the appraisal report (C05 PC 4.1)

Jawapan diterima (dari App 4): product knowledge weakness on modular assembly features (SE-2, SE-3); closing technique (SE-3); prospecting / follow-up (SE-5); reporting discipline (SE-1); below-target achievement 60–75% (SE-2, SE-3, SE-5).

Tahap	Keterangan	Markah
I	At least two performance problems correctly identified, each traceable to the appraisal data.	3
II	Two problems identified but only one clearly traceable.	2
III	Only one problem identified from the data.	1
IV	Performance problems not determined or not from the appraisal data.	0

% Pemberat: 3% Markah Diperolehi: ____/3 (Markah ÷ 3) × 3%

2.15 Staff development requirements determined and training program proposed (C05 PC 4.3, PC 4.4)

- Development requirements match the identified problems (e.g. product knowledge training on modular assembly features, sales closing skills, prospecting).
- Proposed training program states topic, target staff and objective.

Tahap	Keterangan	Markah
I	Development requirements match the problems and the proposed program states topic, target staff and objective.	3
II	Program proposed and mostly matched, one element missing.	2
III	Program proposed but not linked to the appraisal findings.	1
IV	No training program proposed.	0

% Pemberat: 2% Markah Diperolehi: ____/3 (Markah ÷ 3) × 2%

2.16 Target customer profile and customer area are determined (C06 PC 2.1, PC 2.2)

- Profile from the data: age 25–44, works from home at least 2 days weekly, values space-saving design.
- Customer area from the data: Johor Bahru (strong pilot result) / furniture showroom & online marketplace areas.

Tahap	Keterangan	Markah
I	Profile and area both determined and supported by the survey / pilot data.	3
II	Profile and area determined but one lacks supporting data.	2
III	Only profile OR area determined.	1
IV	Not determined or unrelated to the data.	0

% Pemberat: 2% Markah Diperolehi: ___/3 (Markah ÷ 3) × 2%

2.17 Customer trend/lifestyle and buying pattern are determined (C06 PC 2.3, PC 2.4)

- Trend/lifestyle from the data: work-from-home at least 2 days weekly (62%), space-saving / modular preference (44%), modular desk interest (68%).
- Buying pattern from the data: buys at furniture showroom or online marketplace (54%), pays RM350–RM450 (55%).

Tahap	Keterangan	Markah
I	Trend/lifestyle and buying pattern both determined with supporting figures.	3
II	Both determined, one without supporting figures.	2
III	Only one determined from the data.	1
IV	Not determined.	0

% Pemberat: 3% Markah Diperolehi: ___/3 (Markah ÷ 3) × 3%

2.18 Market development performance is assessed against company requirements (C06 PC 5.2)

Jawapan Betul: Area 1: sell-through 76% ≥ 70% and repeat 61% ≥ 50% — **meets requirement**. Area 2: sell-through 55% < 70% and repeat 33% < 50% — **does not meet requirement**. Recommendation consistent with this result.

Tahap	Keterangan	Markah
I	Both areas correctly assessed against both requirements, with a consistent recommendation.	3

Tahap	Keterangan	Markah
II	Both areas correctly assessed but recommendation weak or missing.	2
III	Only one area correctly assessed.	1
IV	Pilot result not assessed or wrongly interpreted.	0

% Pemberat: 2% Markah Diperolehi: ____/3 (Markah ÷ 3) × 2%

2.19 Operational schedule is produced and staff deployed accordingly (C07 PC 3.2, PC 3.3)

- Schedule covers Monday–Saturday, both lorries, all 27 drop points (Zone A 11, Zone B 9, Zone C 7) within the 6-drop-points-per-lorry-per-day limit.
- Each lorry assigned 1 driver + 1 assistant.
- An action addressing the Zone C late-delivery complaints is stated (e.g. dedicated Batu Pahat day / earlier departure).

Tahap	Keterangan	Markah
I	Schedule is complete, feasible within the stated constraints, staff assigned, and the Zone C action stated.	3
II	Schedule feasible with one minor gap (e.g. Zone C action generic).	2
III	Schedule incomplete or breaches a stated constraint.	1
IV	Operational schedule not produced.	0

% Pemberat: 3% Markah Diperolehi: ____/3 (Markah ÷ 3) × 3%

2.20 Stock level is assessed by referring to the submitted inventory report (C07 PC 4.3)

Jawapan Betul: BELOW minimum: plywood board 18mm (300 < 500 sheets) and assembly hardware packs (700 < 900 packs). Steel leg frame sets (1,800 > 1,000) and flat-pack cartons (650 > 400) are adequate.

Tahap	Keterangan	Markah
I	Both below-minimum items correctly identified and no adequate item wrongly flagged.	3
II	Both below-minimum items identified but one adequate item also flagged.	2
III	Only one below-minimum item identified.	1
IV	Stock level not assessed.	0

% Pemberat: 3% Markah Diperolehi: ____/3 (Markah ÷ 3) × 3%

2.21 Stock purchase is proposed according to company procedure (C07 PC 4.4)

- Purchase proposal covers the below-minimum items with quantities justified by monthly usage (plywood usage 900 sheets/month; hardware packs usage 1,200/month).

Tahap	Keterangan	Markah
I	Proposal covers both items with quantities justified by the usage data.	3
II	Proposal covers both items but quantities not justified.	2
III	Proposal covers only one item.	1
IV	No purchase proposal made.	0

% Pemberat: 2% Markah Diperolehi: ____/3 (Markah ÷ 3) × 2%

2.22 Current usage and sustainability of existing technology are analysed (E01 WA1, PC 1.1, PC 1.2)

- At least three efficiency problems identified from the Technology Usage Brief (manual re-keying with ~6 errors/month; accounting not linked to inventory; manual stock count 3 days; wall-planner schedule with no shared visibility; no upgrade plan).
- Sustainability assessment states whether the current set-up can support the launch/expansion, based on those findings.

Tahap	Keterangan	Markah
I	Three or more problems identified from the brief and a supported sustainability assessment given.	3
II	Two problems identified with a general sustainability assessment.	2
III	Only one problem identified or no sustainability assessment.	1
IV	Technology usage not analysed.	0

% Pemberat: 3% Markah Diperolehi: ____/3 (Markah ÷ 3) × 3%

2.23 Business process analysis carried out and one improvement proposed (E01 WA3, PC 3.1)

- One process improvement proposed, naming the process reviewed, the proposed change and the expected benefit.
- Proposal addresses a problem stated in the Technology Usage Brief (e.g. linking order records to inventory records; digital order capture to remove re-keying; shared production/delivery schedule).

Tahap	Keterangan	Markah
I	Improvement names the process, the change and the benefit, and addresses a documented problem.	3

Tahap	Keterangan	Markah
II	Improvement relevant but one element (process / change / benefit) missing.	2
III	Improvement generic and weakly linked to the brief.	1
IV	No improvement proposed.	0

% Pemberat: 3% Markah Diperolehi: ____/3 (Markah ÷ 3) × 3%

Semakan pemberat Bahagian 2: C01 9% + C02 8% + C03 7% + C04 7% + C05 8% + C06 7% + C07 8% + E01 6% = **60% ✓**

Jumlah Markah Bahagian 2: ____ (60%)

BAHAGIAN 3 — HASIL KERJA (10%)

3.1 Marketing plan & market development pack (Appendix 5) is complete and consistent (C01 + C06)

- All Part A and Part B fields completed; trends, price point, plan, target profile and pilot analysis mutually consistent and traceable to Appendix 2.

Tahap	Keterangan	Markah
I	All fields completed, internally consistent and data-supported.	3
II	Complete with one or two minor inconsistencies.	2
III	Several fields incomplete or inconsistent.	1
IV	Appendix 5 substantially incomplete.	0

% Pemberat: 3% Markah Diperolehi: ____/3 (Markah ÷ 3) × 3%

3.2 Budget & business analysis figures (Appendix 6) are arithmetically correct (C02 + C04)

Jawapan Betul SET B: margins 40.00% / 40.63%; month totals RM246,000 / RM295,200 / RM324,720; break-even 1,050 units (Model A) / 808 units (Model B) / ≈955 units (2:1 mix); Month 1 contribution RM99,000 below break-even, Month 2 onwards above.

Tahap	Keterangan	Markah
I	All submitted figures arithmetically correct (minor rounding accepted).	3
II	One arithmetic error that does not change the conclusions.	2
III	Several arithmetic errors or a changed conclusion.	1
IV	Figures substantially incorrect or missing.	0

% Pemberat: 4% Markah Diperolehi: ____/3 (Markah ÷ 3) × 4%

3.3 Operation, staff, logistic and technology reports (Appendix 7 & 8) are complete and usable (C03 + C05 + C07 + E01)

- KPI table, team evaluation, manpower plan, training proposal, delivery schedule, stock assessment, purchase proposal and technology review all completed and usable as working documents.

Tahap	Keterangan	Markah
I	All sections completed, systematic and usable.	3
II	Complete with one or two minor omissions.	2
III	Several sections incomplete or not usable.	1
IV	Appendix 7 / 8 substantially incomplete.	0

% Pemberat: 3% Markah Diperolehi: ____/3 (Markah ÷ 3) × 3%

Jumlah Markah Bahagian 3: ____ (10%)

BAHAGIAN 4 — SIKAP / KESELAMATAN / ALAM SEKITAR (10%)

4.1 Candidate attends the assessment at the specified time

Tahap	Keterangan	Markah
I	Present and ready at the specified assessment start time.	3
II	Late within 10 minutes.	2
III	Late more than 10 minutes but within 30 minutes.	1
IV	Late more than 30 minutes.	0

% Pemberat: 2% (Markah ÷ 3) × 2%

4.2 Information is collected, processed and applied according to task requirements

Tahap	Keterangan	Markah
I	All required information correctly collected, systematically processed and applied.	3
II	Mostly correct with one minor inconsistency.	2
III	Partially systematic; several inconsistencies.	1
IV	Information not appropriately handled.	0

% Pemberat: 2% (Markah ÷ 3) × 2%

4.3 Computer and digital equipment are handled correctly and safely

Tahap	Keterangan	Markah
I	All equipment handled correctly and safely; left in proper condition.	3

Tahap	Keterangan	Markah
II	Generally correct with one minor weakness.	2
III	Proper handling only partially observed.	1
IV	Equipment mishandled or left in improper condition.	0

% Pemberat: 2% (Markah ÷ 3) × 2%

4.4 Company, financial and staff information is handled responsibly and systematically

Tahap	Keterangan	Markah
I	All information handled responsibly and systematically.	3
II	Generally responsible with one minor weakness.	2
III	Inconsistent or poorly organised.	1
IV	Handled irresponsibly.	0

% Pemberat: 2% (Markah ÷ 3) × 2%

4.5 Documents, equipment and work area are properly organised upon completion

Tahap	Keterangan	Markah
I	All items properly organised and ready for submission.	3
II	Mostly organised with one minor omission.	2
III	Only partially organised.	1
IV	Not properly organised.	0

% Pemberat: 2% (Markah ÷ 3) × 2%

Jumlah Markah Bahagian 4: ____ (10%)

BAHAGIAN 5 — SOAL JAWAB (20%)

10 soalan wajib, sekurang-kurangnya satu bagi setiap CU. Setiap soalan diberi markah 0–3 mengikut skala di bawah. Jawapan yang diterima adalah berdasarkan Performance Criteria CP sahaja.

Tahap	Keterangan	Markah
I	Three or more correct and relevant answers are stated or explained clearly.	3
II	Two correct and relevant answers are stated or explained.	2
III	One correct and relevant answer is stated or explained.	1
IV	No correct or relevant answer is stated.	0

No.	Soalan	CU	Jawapan yang Diterima (berdasarkan Performance Criteria CP)
5.1	State three (3) items that must be determined when carrying out a market assessment for a new furniture product.	C01	Matrix of players and their products listed; market trends determined according to market analysis reports; issues in market listed based on market analysis findings (C01 PC 2.1–2.3)
5.2	Explain how you would determine the buying factors and price point of the target market for the FlexiDesk range.	C01	Buying cycle based on product specification; buying factors based on PASTEL requirements analysis; price point based on market analysis findings (C01 PC 4.1–4.3)
5.3	Explain how the margin for each product and the required gross margin are determined when preparing a sales budget.	C02	Required cross margin confirmed based on company policies and procedures; operating expenses planning prepared according to accounting format; margin for each product determined according to standard calculation format (C02 PC 4.1–4.3)
5.4	Explain how the individual KPI for each sales staff is set.	C03	Sales budget identified from sales budget planning; marketing plan interpreted according to requirements; KPI individually determined according to sales budget; KPI of individual/team assessed according to sales performance (C03 PC 2.1–2.3, 4.2)
5.5	Explain how profitability and break-even point are estimated during business analysis.	C04	Selling price estimated based on competition and customer feedback; sales volume estimated based on market analysis; profitability and break-even point estimated according to company procedure (C04 PC 3.1–3.3)
5.6	State three (3) steps involved in market testing a new product such as a desk prototype.	C04	Physical prototype or mock-up obtained according to procedure; product (and its packaging) tested in typical usage situations according to procedure; necessary product adjustment specifications proposed based on feedback from product testing activities (C04 PC 4.1–4.3)
5.7	Explain three (3) steps in carrying out a staff interview session up to candidate confirmation.	C05	Information on applicant collected from human resource department; effective interviewing technique determined according to standard procedure; effectiveness of interview session assessed according to determined criteria; selected candidate confirmed and proposed to human resource personnel (C05 PC 3.1–3.4)
5.8	State three (3) items that must be determined when identifying the target market for market development.	C06	Profile of target customer obtained from company's database; customer area determined from market analysis report; customer trend and lifestyle determined based on market trend analysis findings; customer buying pattern confirmed on market trend analysis findings (C06 PC 2.1–2.4)
5.9	Explain the actions to be taken on delivered goods and when a stock discrepancy is found.	C07	Delivered goods conditions checked upon receipt by customer; tools, equipment and materials condition checked according to company procedure; stock level assessed by referring to submitted inventory report; stock purchased according to company procedure (C07 PC 2.3, 4.2–4.4)

No.	Soalan	CU	Jawapan yang Diterima (berdasarkan Performance Criteria CP)
5.10	Explain how technology scanning is carried out and how a strategic technological change is proposed.	E01	Technology scanning carried out according to scanning process and techniques; strategic technological change proposed according to stakeholders requirements; new strategic technology implemented according to Company's business objectives (E01 PC 4.2–4.4)

Pengiraan Bahagian 5: Jumlah Markah (maksimum $10 \times 3 = 30$) $\div 30 \times 20$

Jumlah Markah Bahagian 5: $/30 \times 20 =$
