

APN GUIDELINE

Please find the below step to register as AWS Partner.

1. Register your company in APN via: <https://partnercentral.awspartner.com/APNSelfRegister>.
2. In this step, if your customers are more from:
 - a. government sector (ministries/agencies/ state government/city council)
 - b. education (private university, government university, schools or other public/private education institution)
 - c. non-profit organization
 - d. Government hospital, government healthcare provider

****For Public Sector Focus Partner:** please put value of 51% or above in the box that I highlighted above. I recommend you to put 51% or above, so that me or Public Sector partner team can assist you for further onboarding process.

4.

Industry Vertical

Select

Industry Vertical is required

Target client base

Select

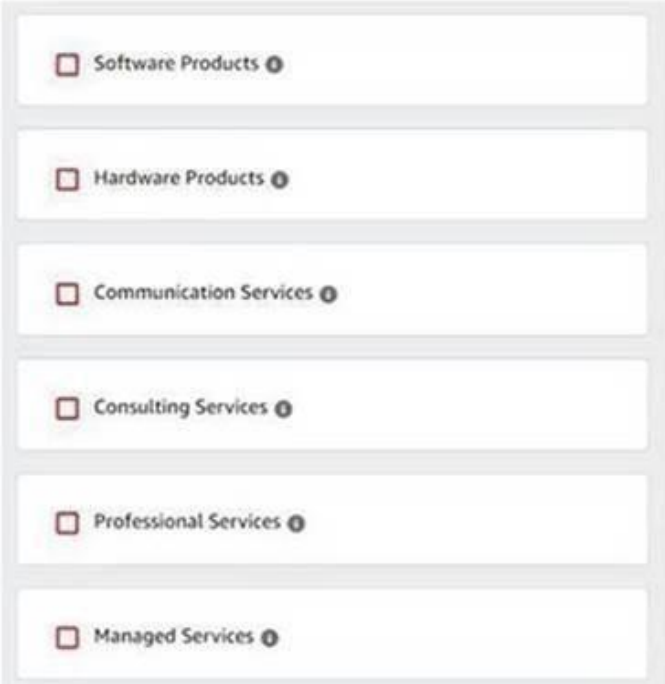

This field is required

Enter value from 0-100. e.g.75

This field is required Must be between 0 and 100

3. In this step:

☐ Software Products ⓘ

☐ Hardware Products ⓘ

☐ Communication Services ⓘ

☐ Consulting Services ⓘ

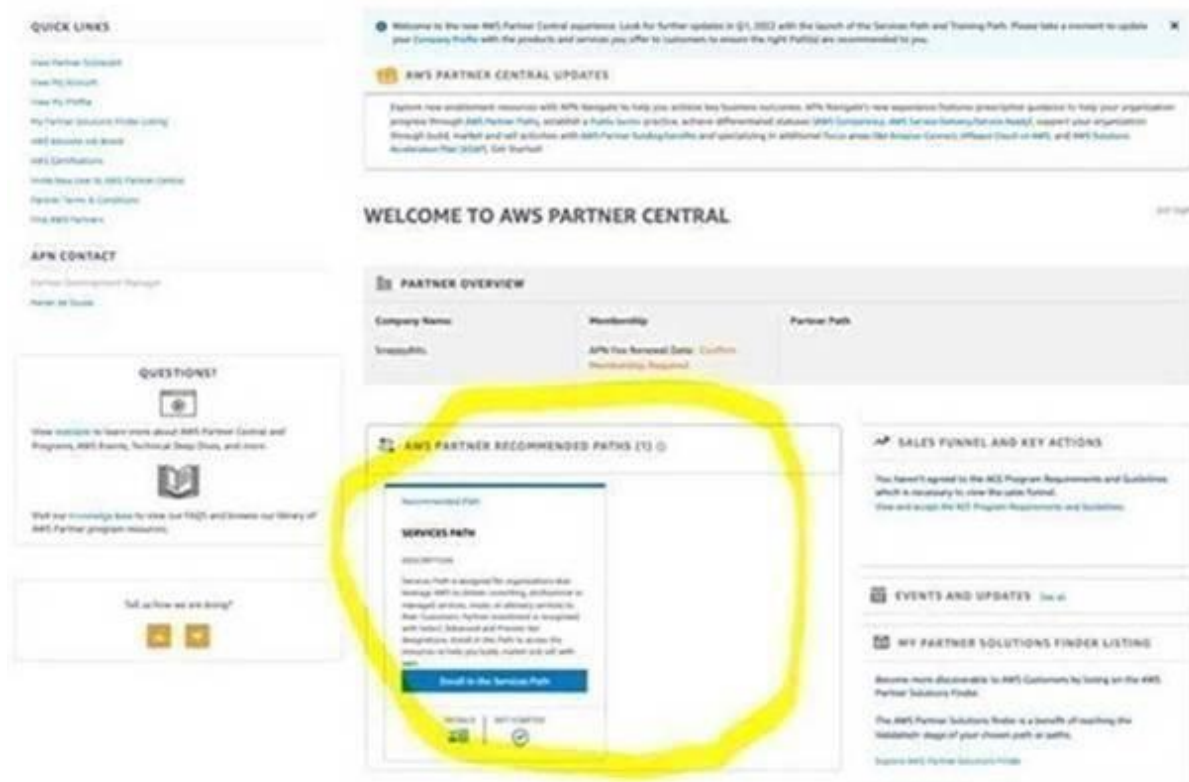

☐ Professional Services ⓘ

☐ Managed Services ⓘ

- a. If your company is a **system integrator, providing consultancy, implementation service, support**, please choose “**Consulting Service**” and/or “**Professional service**” and/or “**Managed Service**”
- b. If your company is an **ISV** (Independent Software Vendor) that build applications and sell this application as an offer to your customer, please choose “**Software Products**”

Once you completed APN registration, please re-login to AWS Partner Central via <https://partnercentral.awspartner.com/APNLogin> with email address and password that you use when you register your company in APN. Then please do step 4 below.

4. Enroll to AWS Partner Recommended Path (the one that I highlighted below)

- If your organization is a **system integrator**, providing consultancy/implementation/support service, please enroll to “**Service Path**”.
- If your organization is an **ISV** (Independent Software Vendor), building an application on AWS platform or will use service from AWS, please enroll to “**Software Path**”

Let me know if you have question. Once you have completed the above steps, do let me know.
