6. Dilarang membawa keluar kertas soalan dari bilik peperiksaan

KERTAS PENILAIAN INI MENGANDUNGI8.... MUKA SURAT BERCETAK

1. What is the correct process used in establishing a network flow?

- I. Identify user needs.
- II. Plan the Information systems.
- III. Establish user requirements.
- IV. Establish the system design.

- A. I, II, III and IV
- B. I, II, IV and III
- C. I, III, II and IV
- D. I, III, IV and II

2. What is the early stage procedure in selecting the best software?

- I. Feature vs. requirement
- II. Taking cost/benefit analysis
- III. Considering future upgradability
- IV. Considering hardware compatibility

- A. I, II, III dan IV
- B. I, II, IV dan III
- C. I, III, II dan IV
- D. I, III, IV dan II

3. What are the steps in understanding IT update?

- I. Identify IT usage
- II. Observe IT evolvement
- III. Observe latest IT knowledge
- IV. Understand the interaction between technologies or system

- A. I, II, III dan IV
- B. I, II, IV dan III
- C. I, III, II dan IV
- D. I, III, IV dan II

4. What are the steps in defining future upgradability?
- A. Identifying usable software,functionality and cost analysis
 - B. Knowing current specifiation,compatible specification and cost
 - C. Defining initial cost setup,identify usable features and functionality
 - D. Knowing upgradilibity,functionality,cost of upgrade and the need of it
5. What are the cost/benefit analysis processes?
- I. Understand initial setup cost
 - II. Per member surcharge costs
 - III. On-going charge-monthly or annual
 - IV. Transaction charges either per transaction or multiple transaction
- A. I, II, III dan IV
 - B. I, II, IV dan III
 - C. I, III, II dan IV
 - D. I, III, IV dan II
6. What does a collection of words,symbol or codes for human to interact with computer called?
- A. Computer
 - B. Operation
 - C. Application
 - D. Programming.

7. What are the common software used in daily work?

- I. Microsoft Words
- II. Microsoft Excel
- III. Microsoft Scheme
- IV. Microsoft Power Point

- A. I, II, and III
- B. I, II and IV
- C. I, III and IV
- D. II, III and IV

8. What is the definition of Information Technology?

- A. System that connects communication
- B. Service between computers and human
- C. Technology that regulates the usage of data between computer and mobile
- D. Application of computers and telecommunication equipment to store, retrieve, transmit and manipulate data.

9. Which combination of Components of Information System Technology is the most correct?

- A. Hardware, data, technology and people
- B. Software, machine, internet, mobile and networks
- C. Hardware, software, data, procedure, networks and people
- D. Procedures, systems, people, computers, technology and mobile

10. Select the 3 correct considerations in selecting the right software

- I. Features against requirement
- II. Cost/benefit analysis
- III. Printable ability
- IV. Hardware requirement

- A. I,II dan III
- B. I,II dan IV
- C. I,III dan IV
- D. II,III dan IV

11. Choose the correct example of a data entry software.

- A. Firefox
- B. Wordpad
- C. Photo gallery
- D. Microsoft Access

12. Why do we need to be aware of IT update?

- I. To improve work efficiencies
- II. To improve work production
- III. To understand cost affected
- IV. To improve system analysis

- A. I, II, dan III
- B. I, II dan IV
- C. I, III dan IV
- D. II, III dan IV

13. How do you promote usage of proper use of IT?

- A. Introduce IT ethic rules and enforce the regulations
- B. Promoting online competition, encourage social media usage and initiate campaigns
- C. Designing IT ethic pamphlets, create IT competition and offer prize for best IT user
- D. Initiating campaigns,nurturing positive internet use and promote public awareness

14. What is the method used in promoting business online?

- A. Promote Communication Package and offer website hostings
- B. Create online business registration and assist in registration
- C. Offering grant,promote registration and assist in increasing earnings
- D. Promote Click Wisely, setup online registration and offer business grant

15. What are the steps in getting the Industry Player to follow the policies set by the government?

- A. Recommending new acts and enforce the law
- B. Announcing acts,enforcing regulations and offer advise .
- C. Create appeal council,recommend new acts and impose new law
- D. Create consultation avenue,enforce laws and prosecute law-breaker

16. What are the process flow in Institutional Framework under the Communication and Multimedia Act?
- I. Directions from Ministry
 - II. MCMC enforces the acts
 - III. MCMC announces the acts
 - IV. MCMC proposes recommendation based on feedbacks
- A. I, II, III dan IV
 - B. I, II, IV dan III
 - C. I, III, II dan IV
 - D. I, III, IV dan II
17. Who are the regulatory body for communication and multimedia in Malaysia?
- A. Malaysian Multimedia Commission
 - B. Malaysian Technology Advisory Body
 - C. National Communication and Multimedia Body
 - D. Malaysian Communications and Multimedia Commission
18. Which legislations are the correct legislation?
- A. Telecommunications Act (1950) and Broadcasting Act (1998)
 - B. National Policy for Communication and Multimedia Strategy 1997
 - C. Multimedia Communication Act 1999 and Multimedia Commission Act 1998
 - D. Communication and Multimedia Act 1998 and Malaysian Communication and Multimedia Comission Act 1998

19. Why is there a need to have Multimedia and Communication legislation in Malaysia?
- A. To fill on the required legislation quota
 - B. On request from industry player of Communication and Multimedia
 - C. To fulfill the need to regulate an increasingly convergent communications and multimedia industry
