QUESTION 1

- a. Explain two (2) examples how a person can ensure the discovery of Common Point of Interest (CPI)?
(4 marks)
- b. Explain two (2) of your understandings about Networking Methodology Procedure.
(4 marks)
- c. Explain two (2) concepts of environmental influential that can promote empathy.
(6 marks)
- d. Explain two (2) learning objectives that could affect the training outcome evaluation.
(6 marks)

QUESTION 2

- a. There are a range of methods available for data collection and analysis. Briefly explain four (4) methods of data collection usually selected within the organization studied and the institute conducting the analysis.
(10 marks)
- b. Briefly explain four (4) steps of training cycle.
(10 marks)

SCHEMA

Question 1

- a.
 - It is an essential element to every conversation and interaction. Your duty, as you meet new people, or even as you talk to your acquaintances, is to discover the CPI as soon as possible.
 - It connects people to you. It allows them to feel more comfortable talking to you. And it increases your approachability as much as people will be magnetized to you due to the commonality you share.
 - A great tip is to ask the right type of questions. You may ask questions that begin With:
 - "What is your favorite..."
 - "Tell me the best..." or "
 - "When was the last time"
- b. There are a couple of techniques applicable in pursuing networking procedures.
 - Ready to Engage
 - So the first idea to remember is that approachability is a two way street. It is both you stepping onto someone else's front porch and you invite someone to step onto your front porch.
 - Common Point of Interest (CPI)
 - It is an essential element to every conversation and interaction. Your duty, as you meet new people, or even as you talk to your acquaintances, is to discover the CPI as soon as possible
 - Flavoured Answers
 - A great technique is to offer a flavored answer to a fruitless question. Instead of using the word "fine," try word "Amazing!" or phrase "Everything is beautiful."
 - Do Not Cross Your Arms
 - They may have the impression that you are defensive, nervous, judgmental, close minded or skeptical. Generally, people would not want to approach someone of that character

- Do Not Assume

Whenever you assume there is tendency to make mistakes. How often do people utter the following sentences?

- You must be new here.
- How is work going?
- Do you remember me?

c. Components of Empathy

Empathy can be divided into two major components.

i) Affective Empathy

- Empathic Concern

Sympathy and compassion for others in response to their suffering.

- Personal Distress

Self-centered feelings of discomfort and anxiety in response to another's suffering.

ii) Cognitive Empathy

Cognitive empathy can be subdivided into the following scales.

- Perspective Taking

The tendency to spontaneously adopt others' psychological perspectives.

- Fantasy

The tendency to identify with fictional characters.

d. Knowledge objectives

- refer to learning new concepts, rules, principles, and strategies, such as concepts for urban planning or land readjustment strategies. Skill objectives can be technical, mental or social.
- Technical skills include constructing a road or learning how to use a computerized reporting system. Problem solving and decision making are

examples of mental skills, while leadership and communication are examples of social skills.

Attitude objectives

- refer to the way the trainees perceive and respond emotionally, physically, verbally and intellectually to others.

Learning Objectives

- During the training design, the learning objectives will guide the process and make sure that all activities are contributing to learning that is relevant to the trainees.
- The learning objectives are also crucial when delivering and evaluating the training. By comparing the outcomes of the training with the learning objectives it can be determined whether or not the training was successful.

Effective Learning Objectives

- Writing Effective Learning Objectives describe the utmost importance in conjunction with the client.
- They are a significant stakeholder in the training as they are the ones that must enable and support the trainees upon the conclusion of the training, to adopt the learning into the workplace. Thus, the objective must

Question 2

-Method 1 – Interviews

- Allows for deep understanding
- Flexible
- Interviewer might bias answers

-Method 2 – Group interviews/focus groups

- Participants trigger each other
- Result depends on group dynamics (dominant personalities)
- Interviewer might bias answers
- Time consuming to analyze

- Method 3 – Questionnaires

- Easy to distribute
- Anonymous responses possible
- Online tools available for automatic compilation of data
- Open and closed question structures possible
- Usually low response frequency
- Questions might be mis
- Usually low response frequency
- Questions might be misinterpreted
- Open questions are time consuming to analyze

-Method 4 – Observations

- Good for studying actual behaviour
- Provides information in its context
- People might change behaviour when being observed
- Time consuming to analyze

b. - Assessment

- Needs
- Effective entry point
- Build on previous

- Design

- Process

- Approaches & tools
 - Fit the client need
- Evaluation
 - Document lessons learned
 - Event, learning and performance
- Delivery
 - Quality
 - Relevance
